Performance during May 2020

During May 2020, the power generation, production of coal, crude oil, refinery, natural gas, upgradation of highways by NHAI, passengers traffic handled at both (international & domestic) terminals of the airports were lower than the target for the month as well as the performance during the corresponding month of the previous year. However, upgradation of highways by state PWD and Border Road organization (BRO) and export and import cargo handled at airports, were higher than the targets but lower than the performance during the corresponding month of the last year. The production of fertilizers was lower than the targets but higher than the performance during the corresponding month of the last year. During the month, the production of finished steel, cement, goods traffic carried by railways, cargo handled at major ports and coal handled at major ports were lower than the performance during the corresponding month of the previous year.

Performance during April - May 2020

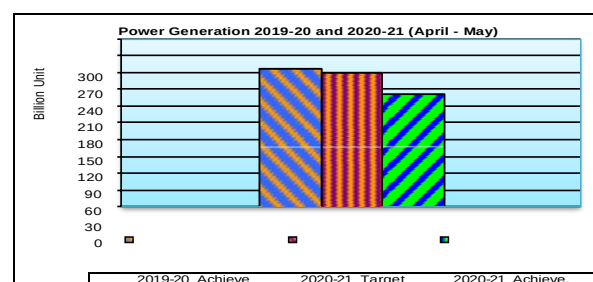

During April – May 2020, the power generation, production of coal, fertilizers, crude oil, refinery, natural gas, upgradation of highways by NHAI, export and import cargo handled at airports, passengers traffic handled at both (international & domestic) terminals of the airports were lower than the target for the month as well as the performance during the corresponding month of the previous year. However, upgradation of highways by state PWD and Border Road organization (BRO) was higher than the targets but lower than the performance during the corresponding month of the last year.
